On Entry Data Data Analysis using yr 1 cohort. Reading It was observed our kindy kids had such a solid foundation of oral understanding of language that they were at a huge advantage when they began pre-primary. Half our students are sitting at state average or above in writing. Discussion of other factors affecting results. Explanation of colour system. red-low/orange-midrange/green-high. The challenge is to keep the positive results going. Emily is engaging all families and attendance rate is improving. High expectations on our kids. There is also a predictor of where they should be in PP based on their data and is it matching. Different means to find and attract good staff.
